Professional Summary

Frontend Developer with 7 years of experience building polished, high-performance web applications across financial services, health tech, education, and enterprise sectors. Deep expertise in React, TypeScript, and modern frontend tooling, with a track record of leading frontend teams, owning component architecture, and shipping complex UIs from Figma to production. Equally comfortable working in fast-moving product teams or independently as a freelancer, always focused on clean code, great user experience, and measurable results.

Skills

- **Frontend Languages:** JavaScript, TypeScript, HTML5, CSS3
- **Frameworks/Libraries:** React, Angular, Next.js, Expo
- **Styling & UI:** TailwindCSS, Bootstrap, CSS-in-JS, Responsive Design
- **State Management:** React Query, Redux, Redux Thunk, Zustand, Context API
- **Animation:** Framer Motion, GSAP
- **Testing:** Jest, React Testing Library, Cypress
- **Tools & Technologies:** Git, GitHub, Figma, Webpack, Vite, Postman, Swagger, Firebase, Supabase
- **Others:** RESTful APIs, WebSockets, Performance Optimization, Cross-browser Compatibility, Accessibility (a11y), Agile Methodologies

Additional Skills:

- **Backend Exposure:** Node.js, Express.js, Nest.js, Laravel, PHP, Python, C, C#
- **Mobile Development:** Kotlin, React Native, Expo, iOS/Android deployment
- **Database Technologies:** MySQL, PostgreSQL, MongoDB, Redis
- **Cloud & DevOps:** AWS, Vercel, Netlify, Docker, CI/CD pipelines

Professional Experience

Frontend Developer

Optimus Bank Limited, Lagos

January 2025 - Present

- Leading development of the corporate internet banking mobile app as the project's technical lead.
- Shipped multiple mobile features including group savings, scheduled transactions, international payments, and health insurance.
- Integrated Google ML-Kit to implement facial liveness detection for biometric authorization of high-stakes user actions.
- Created reusable component libraries and maintained consistent design systems across mobile platforms.
- Refactored core frontend areas of the codebase to improve maintainability and scalability.

Freelance Frontend Developer

2025 – Present

- Delivered web interfaces for client products including a React-based crypto analytics dashboard, a Next.js salon booking platform with real-time chat, and an interactive browser-based canvas game.

- Built production-ready SPAs and web portals end-to-end — from component architecture and state management to responsive styling and deployment.

Full-stack Web Developer (Frontend Focus)

Mitiget Assurance and Technology, Lagos

January 2024 - January 2025

- Led the frontend development team for a comprehensive Governance, Risk, and Compliance (GRC) system, architecting scalable React components and implementing responsive user interfaces.
- Developed the frontend for an e-learning platform (Mitiget Learning Academy) using Angular, featuring course registration, interactive quiz systems, and affiliate marketing dashboards.
- Implemented modern state management solutions using React Query and Context API to optimize data flow and user experience.
- Created pixel-perfect, responsive interfaces from Figma designs, ensuring cross-browser compatibility and mobile responsiveness.
- Collaborated closely with UX/UI designers and backend developers to deliver seamless user experiences.

Projects

Professional Projects

- **Corporate Internet Banking (Optiverse Business)**

Leading development of Optimus Bank's corporate internet banking platform as technical lead — building complex financial UI components, multi-step transaction flows, and reusable React component libraries with strict TypeScript and scalable state management.

Technology: React, TypeScript, Redux, Redux Thunk, Context API, TailwindCSS, REST API.

- **M-Clarion GRC System Frontend**

Led frontend development for a comprehensive GRC system with complex data visualization and user management interfaces.

Technology: React, TypeScript, React Query, Context API, TailwindCSS, Chart.js.

[Live Preview](#)

- **MLA E-learning Platform Frontend**

Developed a comprehensive e-learning platform frontend with course management interfaces and interactive quiz systems.

Technology: Angular, TypeScript, TailwindCSS, RxJS, Laravel, MySQL.

[Live Preview](#)

- **Optiverse Mobile Frontend**

Created intuitive mobile banking interfaces with seamless user experience and modern design patterns.

Technology: React Native, TypeScript, NativeWind, Animated API.

[Live Preview](#)

- **Events Registration Website**

A simple events management and registration website with both administration and registration interfaces.

Technology: HTML, CSS, PHP, MySQL.

[Live Preview](#)

Freelance Projects

- **The Gentle Touch** — Web platform for a full salon ecosystem: a Next.js marketing and booking website plus an admin portal supporting appointment management, real-time chat, product shopping, staff

management, and service configuration.

Technology: Next.js, React, TailwindCSS, Firebase.

- **Iris Crypto Engine** — React-based crypto intelligence web dashboard featuring live market prices, trading signals, alpha feeds, portfolio tracking, and watchlists.

Technology: React, Supabase.

- **Pictionary-Style Multiplayer Game** — Interactive web canvas where players draw in real time; the canvas stream broadcasts live to an Android TV while other players guess via WebRTC — built entirely as a browser-based frontend.

Technology: HTML5 Canvas, WebRTC, JavaScript, Cloudflare Workers.

Personal Projects

- **Telehealth Frontend Application** *September 2024*

A responsive health services platform with interactive maps and location-based hospital search.

Technology: TypeScript, React, TailwindCSS, MapBox API, Geoapify.

[Live Preview](#) | [GitHub Repository](#)

- **Subsum Telecommunications Frontend** *August 2024*

Modern telecommunications website with responsive design and smooth user interactions.

Technology: React, TailwindCSS, Responsive Design.

[Live Preview](#) | [GitHub Repository](#)

- **Interactive 2-D Platform Game** *August 2022*

Browser-based platform game showcasing advanced JavaScript animations and game mechanics.

Technology: HTML5 Canvas, CSS3, JavaScript ES6+, Game Loop Optimization.

[Live Preview](#) | [GitHub Repository](#)

- **Clinic Management Frontend** *October 2023 - December 2023*

Single-page application with complex form handling and data visualization for medical records.

Technology: HTML5, CSS3, JavaScript ES6+, AJAX, Responsive Design.
