Professional Summary

React Native Developer with 7 years of experience shipping production mobile applications across fintech, health tech, and enterprise. Currently leading development of Optimus Bank's corporate internet banking platform, with a track record spanning consumer banking apps, health tracking, salon ecosystems, and real-time WebRTC multiplayer. I bring full-stack depth across mobile UI, API integration, and native tooling, with a consistent focus on performance, clean architecture, and code built to last in production.

Skills

- **Mobile Development:** React Native, Expo
- **Languages:** JavaScript, TypeScript, Kotlin
- **State Management:** Redux, Redux Thunk, Context API, React Query, Zustand
- **Mobile UI/UX:** NativeWind, Gesture Handler, Reanimated
- **Navigation:** React Navigation, Expo Router
- **Testing:** Jest, React Native Testing Library, Detox
- **Tools:** Git, GitHub, Xcode, Android Studio, Gradle, Metro Bundler, Firebase Cloud Messaging (FCM), Stripe, Paystack
- **App Store Management:** App Store Connect, Google Play Console
- **Others:** RESTful APIs, WebSockets, WebRTC, Offline Storage, Performance Optimization, Agile Methodologies

Additional Skills:

- **Frontend Web Technologies:** React, Angular, Next.js, HTML5, CSS3
- **Backend Exposure:** Node.js, NestJS, Express.js, Laravel, .NET, PHP, Python, C, C#
- **Database Knowledge:** MySQL, PostgreSQL, MsSQL, MongoDB, Redis
- **Cloud & Services:** Firebase, Supabase, AWS, Docker, Cloudflare Workers

Professional Experience

Mobile Developer

Optimus Bank Limited, Lagos

January 2025 - Present

- Leading development of the corporate internet banking mobile app as the project's technical lead.
- Integrated Google ML Kit to implement facial liveness detection for biometric authorization of high-stakes user actions.
- Built and integrated an AI chatbot API powering in-app conversational banking on Optiverse.
- Shipped multiple mobile features including group savings, scheduled transactions, international payments, and health insurance purchase.
- Refactored core areas of the codebase to improve maintainability and scalability across the stack.
- Developed Optipass, a visitor management system, handling full backend implementation.

Freelance Mobile & Full-Stack Developer

2025 – Present

- Built and shipped mobile applications for three clients spanning health tracking, a full salon booking ecosystem, and a real-time multiplayer Android TV game.
- Delivered end-to-end across the mobile stack — from UI and navigation to native integrations, third-party payments, and real-time features — working independently from kickoff to production.

Full-Stack Developer

Mitiget Assurance and Technology, Lagos

January 2024 - January 2025

- Developed an e-learning platform (Mitiget Learning Academy), featuring a course registration system, a quiz system, an audit system, and affiliate marketing functionality.
- Led the frontend team of a Governance, Risk, and Compliance (GRC) system project.
- Created an events management and registration website using vanilla PHP.

Projects

Professional Projects

- **Optiverse**

A banking application designed for seamless transactions, featuring an intuitive, user-friendly interface for effortless navigation.

Technology: React Native, Typescript, Redux, Redux Thunk, Context API, NativeWind, REST API.

[Live Preview](#)

- **Corporate Internet Banking App (Optiverse Business) (In Development)**

Leading development of Optimus Bank's corporate internet banking mobile application as technical lead.

Technology: React Native, TypeScript, Redux, Redux Thunk, Context API, NativeWind, REST API.

- **M-Clarion**

A GRC system that helps organizations manage their employees record, control access to resources, track risks, goals and objectives.

Technology: React, Typescript, React Query, Context API, Tailwind, REST API.

[Live Preview](#)

- **MLA E-learning Website**

A comprehensive e-learning platform with course management, quiz taking and affiliate marketing features.

Technology: Angular, Laravel, Tailwind, MySQL, JWT, REST API.

[Live Preview](#)

- **Events Registration Website**

A simple events management and registration website with both administration and registration interfaces.

Technology: HTML, CSS, PHP, MySQL.

[Live Preview](#)

Freelance Projects

- **Healthify** — Health tracking mobile app with OCR-powered lab report analysis, daily reminders, weekly check-ins, and Google Health Connect integration for cross-app data sync.

Technology: React Native, NestJS, PostgreSQL, Firebase.

- **The Gentle Touch** — Customer mobile app and full salon ecosystem supporting appointment booking, payments, real-time chat, product shopping, and service configuration.

Technology: Expo, React Native, NestJS, MongoDB, Firebase, Redis, Yoco.

- **Pictionary-style Android TV Game** — Real-time multiplayer game where players draw on a web canvas that streams live to an Android TV; other players guess in real time via WebRTC.

Technology: Kotlin, WebRTC, Cloudflare Workers.

Personal Projects

- **Telehealth (E-Health website)**

September 2024

A web based health services platform. Includes feature to search for hospitals near you.

Technology: Typescript, React, TailwindCSS, MapBox API, Geoapify.

[Live Preview](#) | [GitHub Repository](#)

- **Subssum (Telecoms website)**

August 2024

A telecommunications website.

Technology: React, TailwindCSS, NodeJS, Express, MongoDB, REST API.

[Live Preview](#) | [GitHub Repository \(Frontend\)](#) | [GitHub Repository \(Backend API\)](#)

- **Clinic Website (SPA)**

October 2023 - December 2023

A single-page application for a clinic, featuring diagnostics, prescription and patient information management systems.

Technology: HTML, CSS, JavaScript, Laravel, MySQL, REST API.

[GitHub Repository](#)

- **Secondary School Portal**

December 2021 - April 2022

A comprehensive school management system with student, teacher, and admin interfaces.

Technology: HTML, CSS, JavaScript, PHP, MySQL.

[GitHub Repository](#)

Mobile Development Expertise

Cross-Platform Development

- **React Native Architecture:** Expert in building scalable, maintainable React Native applications with proper code organization and reusable components.
- **Performance Optimization:** Implemented lazy loading, image optimization, and efficient re-rendering strategies to ensure smooth 60fps performance.
- **Platform-Specific Features:** Leveraged iOS and Android specific APIs while maintaining code reusability across platforms.
- **Accessibility:** Implemented accessibility features ensuring apps are usable by users with disabilities.

State Management & Data Flow

- **Redux Implementation:** Built complex state management systems for banking applications with secure data handling and real-time updates.
- **Context API:** Implemented lightweight state management for smaller applications with optimal performance.
- **Data Persistence:** Designed offline-first applications with local storage, caching strategies, and sync mechanisms.

App Store Deployment Experience

- Successfully published and maintained applications on both Google Play Store and Apple App Store
- Managed app versioning, release cycles, and hot fixes
- Implemented CI/CD pipelines for automated testing and deployment
- Handled app store optimization (ASO) and user feedback management

Education

B.Eng. in Civil Engineering — Second Class Upper (2:1)

University of Ilorin, Ilorin

November 2017 - October 2023
